PMJ	Spring Lady	Textile	1

Note: The Nemean Soo-Leaina undergarment scored 6/10 when the abrasion test was conducted on the undergarment under 10-ounce denim. Protection levels may be lower if this garment is worn under different pant materials. The garment scored 2/10 (1.58) for abrasion and two stars (35.9) for protection when tested as a stand-alone garment. Because I don't own 10-ounce denim pants, I would not achieve the criteria that I am looking for when using this option, so I have excluded it from my successful criteria list.
